INTERVIEW GUIDE

Emerging Technology Assessment for Manila Manufacturing Corporation (MMC)

Prepared by: Reign Jasmine D. Bunye

Course: DCIT 26 - Application Development and Emerging Technologies

Date: September 12, 2026

Instructor: Mr. Johneros Puyo

INTRODUCTION / INTERVIEWER INSTRUCTIONS

Purpose:

The purpose of this interview is to assess Manila Manufacturing Corporation's (MMC) current status, operations, awareness, readiness, challenges, skills, budget and implementation capacity regarding emerging technologies.

Interviewer Instructions:

1. Give a brief introduction about the interview.
2. In the given order, ask the questions.
3. Let the interviewee completely explain their responses.
4. When you need more information or clarification, use the probing questions.
5. Note significant comments and observations.
6. Stay professional and avoid being biased.

INTERVIEWEE INFORMATION

Name: _____

Position/Role: _____

Department: _____

Years with MMC: _____

Date of Interview: _____

QUESTIONS

1.What are the problems or issues that MMC's manufacturing processes are currently facing?

Notes/Response:

Probe: What areas of your operations rely most heavily on technology?

2. What can you say about MMC's present manufacturing processes and the technologies that your company is using and how does this affect productivity, cost and decision making?

Notes/Response:

3. How does MMC gather and analyze data from its production and business operations?

Notes/Response:

4.Does your company's manufacturing process currently employ automated systems?

☐ Yes
☐ No
☐ Partially

If yes: What processes are automated?

Notes/Response:

Probe: What types of data are most important to your decision-making?

5. To what range do you understand the idea of emerging technologies?

☐ No understanding

☐ Limited understanding

☐ Moderate understanding

☐Good understanding

6. What are the emerging technologies MMC has discussed to be considered adopting?

☐ Artificial Intelligence (AI)

☐ Machine Learning

☐ Augmented Reality (AR)

☐ Internet of Things (IoT)

☐ Cloud Computing

☐ Big Data Analytics

☐ Quantum Computing

☐ None

7. What advantages do you believe emerging technologies could provide to MMC?

Notes/Response:

Probe: What are the potential benefits that would be most valuable to MMC, and why?

8. How prepared do you think MMC is to use new technologies?

☐ Not all prepared
☐ Slightly prepared
☐ Somewhat prepared
☐ Very prepared

Probe: What makes you choose that level of readiness?

Notes/Response:

---

9. What improvements would you expect MMC to achieve compared with companies that do not adopt emerging technologies?

Notes/Response:

10.What developments in the manufacturing sector are causing MMC to take emerging technologies into account?

Notes/Response:

---

11. Do you believe that MMC must adopt emerging technologies to remain competitive, and why?

Probe: How could these improvements affect MMC's customers and employees?

Notes/Response:

---

12. In which aspects of MMC's operations could Artificial Intelligence (AI) be useful and could this help the company to operate in different areas?

Notes/Response:

---

13. Is MMC interested in using Machine Learning systems that can learn from experience and data?

☐ Yes
☐ No
☐ Unsure

Probe: What specific problem may Machine Learning help MMC solve?

Notes/Response:

---

14. How can Augmented Reality (AR) help MMC improve its manufacturing or workplace processes?

Notes/Response:

Probe: Could augmented reality instructions or real-time information help employees complete their tasks?

15. Would MMC consider using AR to provide information to employees while performing manufacturing, maintenance, or repair tasks? What factors would encourage or discourage MMC from adopting AR?

Notes/Response:

---

16. Are MMC's machines, sensors, or other physical devices currently connected to communicate or exchange information?

☐ Yes
☐ No
☐ Partially
☐ Unsure

Notes/Response:

---

17. How can the company use the Internet of Things (IoT) in manufacturing operations, and how can real-time data can help improve monitoring and decision-making?

Notes/Response:

---

18. Does MMC currently use cloud-based services to store data, applications, or perform other business functions and what are your primary reasons for using or not using cloud services?

Notes/Response:

---

19. What benefits does MMC expect from changing some of its data or systems to Cloud Computing?

Notes/Response:

Probe: What concerns would MMC have about using cloud-based services?

20. Does MMC have access to large amounts of data from its manufacturing, customers, or business operations?

☐ Yes
☐ No
☐ Unsure

21. How can Big Data Analytics help MMC identify patterns and make better real-time decisions?

Notes/Response:

---

22. How much does MMC currently know or comprehend about quantum computing?

☐ High
☐ Moderate
☐ Low
☐ None

Notes/Response:

---

23. Would MMC be interested in keeping an eye on the potential applications of quantum computing, even though it is still in its early stages?

☐ Yes
☐ No
☐ Unsure

Notes/Response:

---

24. What employee skills and technical know-how does MMC currently possess to apply emerging technologies?

Notes/Response:

Probe: Ask: What extra education or training would workers require?

25. What are the most important issues that MMC would have to deal with before implementing emerging technologies successfully?

☐ Budget
☐ Employee skills/training
☐ Infrastructure
☐ Data availability
☐ Management support
☐ Security/privacy concerns

☐ Implementation time
☐ Other: _____

Probe: What aspect should MMC focus on first, and why?

Notes/Response:

Closing Questions/Comments

Do you have any comments about MMCs willingness to adopt emerging technologies?

Additional Notes:

Interviewer Closing Statement:

Thank you for taking the time to share your thoughts. Your answers will help us understand where MMC is today, in terms of technology and how ready MMC is to embrace technologies.
